## 1. Qualitative Information Concerning Quarterly Financial Results

### (1) Qualitative information concerning business results

Progress in the Company's business for the second quarter of FY 2016 is as follows:

#### (i) Domestic

[Anticancer agent: SyB L-0501 (generic name: bendamustine hydrochloride, trade name: TREAKISYM®)]

The Company markets TREAKISYM® in Japan through its business partner, Eisai Co., Ltd. ("Eisai"), for the indications of refractory/relapsed low-grade non-Hodgkin's lymphoma and mantle cell lymphoma. Net sales through Eisai increased as expected.

For patients who need new therapies and to maximize the product value of TREAKISYM®, the Company continues to pursue three additional indications:

Regarding the indications of first-line low-grade non-Hodgkin's lymphoma and mantle cell lymphoma, the Company filed a supplemental New Drug Application (sNDA) in Japan to the Pharmaceuticals and Medical Devices Agency ("PMDA") in December 2015. In the EU, the Company received a notice from Astellas Pharma GmbH (Head office: Germany) that they withdrew their application in January 2016. However, the Company has continued with procedures for approval in Japan in consultation with the PMDA.

Regarding the indication of chronic lymphocytic leukemia, the Company filed a sNDA in Japan in December 2015; this was followed by a specialist consultation by the PMDA in June 2016. Approval processes are underway towards early approval. TREAKISYM® was designated as an orphan drug (pharmaceutical for the treatment of rare diseases) for the indication of chronic lymphocytic leukemia in June 2012. In addition, the "Evaluation Committee on Unapproved or Off-Label Drugs with High Medical Needs," a committee established by the Ministry of Health, Labour and Welfare in Japan, requested the Company to further develop TREAKISYM®.

Thirdly, regarding the indication of refractory/relapsed intermediate/high-grade non-Hodgkin's lymphoma, the Company continues to discuss the path forward for approval with the PMDA.

[Anticancer agents: SyB L-1101 (intravenous formulation) and SyB C-1101 (oral formulation), generic name: rigosertib]

For the global Phase III trial of the intravenous formulation of rigosertib conducted by Onconova Therapeutics, Inc. (Head office: Pennsylvania, U.S.; "Onconova"), the U.S. Licensor of the agent, the Company is in charge of the clinical development in Japan and has started the domestic trial in December 2015. The global Phase III trial is conducted with clinical trial sites in more than ten countries worldwide, for higher-risk myelodysplastic syndrome (HR-MDS) patients who do not respond to the current standard treatment with hypomethylating agents (HMAs) or who relapse after treatment under the current standard of care ("primary HMA failure"). The Company worked on procedures to enroll patients with the disease and accordingly completed the first patient enrollment in July 2016, after the end of the second quarter of fiscal year ending December 31, 2016.

Regarding the oral formulation of rigosertib, the Company started its domestic Phase I clinical trial of the oral formulation of rigosertib in combination with azacitidine (Note) for the target indication of HR-MDS in December 2015, but the provision of the investigational drug of this clinical trial has been delayed, and at present, patient enrollment has not yet been started. As soon as this issue is resolved, the Company will commence patient enrollment, complete this clinical trial as planned, and consider its participation in the global Phase III clinical trial to be conducted by Onconova.

(Note) About azacitidine (Vidaza®: currently marketed by Nippon Shinyaku Co., Ltd.): This drug was confirmed to extend overall survival for the first time in the Phase III clinical trial for the indication of HR-MDS, and was approved in Japan in 2011. It is currently used as a first-line drug for MDS patients who have difficulties in hematopoietic stem cell transplantation.

[Patient-controlled iontophoretic transdermal system for the short-term management of acute postoperative pain: SyB P-1501]

In October 2015, the Company entered into an agreement with Incline Therapeutics, Inc., a wholly-owned subsidiary of U.S.-based The Medicines Company (Head office: New Jersey, U.S.), for an exclusive license to develop and commercialize in Japan SyB P-1501. The Company commenced a domestic Phase III clinical trial for SyB P-1501 in June, examining the applicability of the drug for inpatients to control short-term acute postoperative pain. The Company intends to complete the Phase III clinical trial at the earliest possible time, with the aim of obtaining approval by the end of 2019.

[New drug candidates]

The Company continued with search and evaluation activities to acquire license rights of new drug candidates in global terms, aiming to grow into a bio-pharmaceutical company with both profitability and growth potential, always from a medium-to-long-term perspective.

Meanwhile, in May 2016, the Company established a wholly-owned subsidiary, SymBio Pharma USA, Inc. (Head office: Menlo Park, California, U.S., "SymBio Pharma USA"), as the Company's strategic base for its overseas business development. The Company will accelerate its transformation into a global specialty bio-pharmaceutical company by actively acquiring the worldwide rights concerning new drug candidates, developing and commercializing new drugs in the U.S., Japan, Europe and other global major markets.

(ii) Overseas

SyB L-0501 is also marketed in South Korea, Taiwan and Singapore, and product sales of SyB L-0501 in these countries grew steadily as planned.

(iii) Business results

As a result of the above, net sales totaled 1,210,725 thousand yen for the second quarter of fiscal year ending December 31, 2016, primarily reflecting product sales of TREAKISYM® in Japan. Product sales showed a year-on-year increase of 20.9%, and the Company recorded non-recurring revenue resulting from achieving the sales milestone of SyB L-0501 in Taiwan. Accordingly, overall net sales rose 24.0% year-on-year.

Selling, general and administrative expenses totaled 1,224,729 thousand yen (a year-on-year increase of 31.6%), including research and development ("R&D") expenses of 518,349 thousand yen (a year-on-year increase of 28.4%) primarily due to expenses associated with the clinical trial for the intravenous and oral formulations of rigosertib and preparations for the clinical trial of SyB P-1501, and other selling, general and administrative expenses of 706,379 thousand yen (a year-on-year increase of 34.1%) primarily due to expenses associated with negotiating license agreements for new drug candidates or takeovers of firms that are in possession of new drug candidates.

As a result, operating loss of 819,937 thousand yen was recognized for the second quarter of fiscal year ending December 31, 2016 (operating loss of 647,968 thousand yen for the second quarter of the previous fiscal year). In addition, mainly because the Company recorded non-operating expenses totaling 360,324 thousand yen primarily comprising foreign exchange loss, ordinary loss totaled 1,177,202 thousand yen (ordinary loss of 673,992 thousand yen for the second quarter of the previous fiscal year) and net loss totaled 1,175,338 thousand yen (net loss of 676,424 thousand yen for the second quarter of the previous fiscal year).

Segment information has been omitted as the Company operates within a single segment of the pharmaceutical industry which includes the development and commercialization of drugs, manufacturing, marketing and other related activities.

(2) Qualitative information concerning financial position

Total assets as of June 30, 2016 stood at 7,477,080 thousand yen, an increase of 2,492,790 thousand yen from the previous fiscal year end. This was primarily due to increases of 2,000,000 thousand yen in marketable securities, 570,483 thousand yen in cash and deposits, 43,601 thousand yen in accounts receivable-trade, 24,329 thousand yen in prepaid expenses and 13,310 thousand yen in tools, furniture and fixtures, offsetting decreases of 133,029 thousand yen in merchandise and finished goods and 25,569 thousand yen in advances paid.

Liabilities stood at 2,047,676 thousand yen, an increase of 1,495,199 thousand yen from the previous fiscal year end. This was primarily due to a decrease of 110,837 thousand yen in accounts payable-trade which was offset by increases of 1,575,000 thousand yen in bonds payable and 12,315 thousand yen in income taxes payable.

Net assets increased by 997,591 thousand yen from the previous fiscal year end to 5,429,403 thousand yen, due to the issuance of new shares and stock acquisition rights, offsetting a decrease of 1,175,338 thousand yen in retained earnings following the recognition of net loss.

As a result, the equity ratio decreased by 15.1 percentage points from the previous fiscal year end to 67.8%.

(3) Qualitative information concerning earnings forecasts

No revision was made to the earnings forecasts for FY 2016 as of the date of this document.

(4) Notes on quarterly financial statements

(Notes regarding going concern assumption)

None to be reported.

(Notes regarding significant changes in shareholders' equity)

During the second quarter of fiscal year ending December 31, 2016, common stock and legal capital surplus increased by 712,500 thousand yen and 712,500 thousand yen respectively. This was due to the conversion into new shares in response to the exercise of part of stock acquisition rights granted to the 3rd unsecured convertible bonds. In addition, following the issuance of new shares upon the exercise of part of the 34th stock acquisition rights, common stock and legal capital surplus increased by 342,522 thousand yen and 342,522 thousand yen respectively.

As a result, common stock and legal capital surplus increased by 1,055,022 thousand yen and 1,055,022 thousand yen respectively, amounting to 9,385,798 thousand yen and 9,355,798 thousand yen respectively as of June 30, 2016.

(Significant subsequent events)

Issuance of new shares on the exercise of stock acquisition rights for bonds with stock acquisition rights

During the period from July 1, 2016 to August 4, 2016, a portion of the 3rd unsecured convertible bonds with stock acquisition rights was converted into new shares based on the exercise of rights. The summary of such exercise of the stock acquisition rights is as follows.

Number and type of shares issued:	710,900 shares of common stock
Total amount issued:	150,000 thousand yen
Decrease in convertible bonds with stock acquisition rights	150,000 thousand yen
Amount transferred to capital from the total amount issued:	75,000 thousand yen
